

Revolutionizing Maintenance, Repair, and Overhaul: ONE FASTENER AT A TIME

PERFECT POINT's E-DRILL "CAPTURED THE CROWD" and was, once again, the talk of the floor while exhibiting at Tinker and The Primes (TAP 2017). Yet again we were the talk of the floor with hundreds of attendees stopping by to see our game-changing technology in action.

The real impact came as our CEO Larry Harrell presented the differentiating power of our Fastener Separation Technology to a private gathering of U.S. Air Force, OEM, and prime government contractors. The attendees were a who's-who of senior decision makers in the Department of Defense, and following this presentation our booth was the must-see attraction of the show.

Shows like TAP 2017, introduce seasoned veterans of the Aerospace MRO market to our products and we hear some tremendous feedback:

"Man, we needed you 2 weeks ago, before a junior technician destroyed half a wing taking out titanium fasteners!"

"Every depot in the Air Force needs one of these systems!"

"After seeing this I'll never look at a twist-drill the same way again."

Join Us Next Time At:

11-13 September 2017

F-16 & Proven Aircraft Worldwide Review
Ogden, UT **(Booth 54)**

23-24 October 2017

C-130 TCG
Charleston, SC **(Booth 401)**

14-17 November 2017

Logistics Officer Association (LOA) Symposium
Washington, DC **(Booth 335)**

What We Do

- Reduce AOG Turnaround-Time
- Reduce Labor Time and Cost
- Reduce Damage
- Reduce Material Cost
- Reduce Work-Force Training Time
- Eliminate FOD
- Eliminate Personal Injury
- Eliminate Exposure to Hazardous Waste
- Eliminate Noise Pollution
