

Revolutionizing Maintenance, Repair, and Overhaul: ONE FASTENER AT A TIME

“PERFECT POINT’S DEMONSTRATION A HUGE HIT and really opened the eyes of the General Officers” said the Chief Operating Officer of the Logistics Officer Association (LOA) Symposium in National Harbor, MD.

Perfect Point was a key showcase exhibitor at the Small Business Innovation Pavilion at LOA. CEO Larry Harrell presented the capabilities of Perfect Point’s E-Drill to civilian and military attendees ranking from Senior Enlisted to General Officer. All were amazed at how quickly, effortlessly, and most important, damage free “hard metal” fasteners can now be removed. Perfect Point was also granted time for a private demonstration with some of the show’s more distinguished guests. It was an exciting event for all who attended and Perfect Point will surely be back next year!

“If this was available when I oversaw a maintenance unit, I would have bought everything you had in stock!” – Colonel, USAF (Ret.)

“Incredible. I can see exactly how this system is saving everyone time and money. It is damage free and easy to use.” – Lieutenant General, USAF

“Keep it up guys, you are changing the way aircraft fasteners are being removed.” – Colonel, USAF

Thank you to all who came out to witness the *FUTURE* of fastener removal in the aerospace market. It has been an incredible year for trade shows and Perfect Point will continue next year with several events. Stay tuned to our website so you too can see the “Revolution of Maintenance, Repair, and Overhaul: ONE FASTENER AT A TIME.”

What We Do:

- Reduce AOG Turnaround-Time
- Reduce Labor Time and Cost
- Reduce Damage
- Reduce Material Cost
- Reduce Work-Force Training Time
- Eliminate FOD
- Eliminate Personal Injury
- Eliminate Exposure to Hazardous Waste
- Eliminate Noise Pollution
